

Aegis Power Solution

P/N DR2401B

Rack Mounted
Multiple Output
Power System

Industry MILCOTS, Industrial, & Telecommunications

Application Mobile Communications Equipment

Summary This +24V Input Power System is Rack Mounted and has four (4) DC Volt Outputs.

Specifications

Input 24VDC Nominal, 21VDC-36VDC Range.

Outputs (1) +5VDC @ 40A, 200W Continuous.
(2) +12VDC, 14A, 168W Continuous.
(3) -12VDC, 8.3A, 100W Continuous.
(4) +3.3VDC, 55.1A, 182W Continuous.

Total Power 650 Watts Max.

Dimensions 6.75"H, 15.1"W, 5.25"L (Deep). (Dimensions include mounting bracket.)

Weight 7.7 lb Max.

Package Open Frame with mounting bracket.

Cooling Customer Supplied External Forced Air.

Temperature Range -10°C to +75°C Operating.

Other Features Humidity 5-95% Non-Condensing.
Over Voltage and Over Current Protection.
Shock and Vibration per MIL-STD-810.
