

**Aegis Power Solution**

**AEGIS P/N ES6051A**

**Zeus Rack Mount**

**Shipboard Computer Power  
Quad Output  
Power Supply**

**Application**

**Industry** MILCOTS

**Type Equipment** Shipboard Electronics

**Summary** This metallic enclosed quad output 345 Watt Power System has a 10 second 24VDC battery backup capability, and an integral heat exchanger.

**Specifications**

**Input** 102-132VAC, 47-63 Hz, Single Phase.

**Output** +5VDC @ 38A, 190 Watts.  
+36VDC @ 2.6A, 95 Watts.  
+12VDC @ 0.83, 10 Watts.  
-12VDC @ 4.16, 50 Watts.

**Total Power** 345 Watts

**Dimensions** 3.75"H x 8.0"W x 12.9"L

**Weight** 11.62 Lb.

**Package** Enclosed Metallic Case.

**Cooling** Convection.

**Temperature Range** -0°C to +60°C Operating.

**Other Features** Battery backup.  
Battery OK and Charge Indicators.  
Output OK Indicators.  
Remote voltage trim.  
Remote Enable/Disable.  
EMI compliant to MIL-STD-461E CE102.
