

Aegis Power Solution

**AEGIS P/N NG6111
NG6112**

Chassis Mount

Mobile Test Equipment
Single Output (28VDC or 15VDC)
Configurable Power Supply

Application

Industry MILCOTS

Type of Equipment Mobile Test Equipment

Summary This Single Output metallic enclosed Power Supply can be configured for a 28VDC 630 Watt output or as a 15VDC 330 Watt output unit.

Specifications

Input 115/230VAC auto-ranging, 47-63 Hz, single phase.

Output NG6111 has 28VDC @ 22.5A & 630W. NG6112 has 15VDC @ 22A & 330W.

Total Power Configurable for 630 Watts or 330 Watts.

Dimensions 4.93"H x 2.75"W x 12.9"L.

Weight 5.8 lbs Nominal.

Package Enclosed Metallic Case.

Cooling Internal Forced Air Cooling Fans.

Temperature Range -0°C to +50°C Operating.

Other Features Remote sense.
Single bus active current share.
Remote voltage trim.
Remote Enable/Disable.
EMI compliant to MIL-STD-461E CE102.
